

## Spring Term

### Maths

Year 2 will be continuing to learn about 2D and 3D shapes. We will be learning multiplication and division. Please support your child's learning at home by counting regularly practicing their 2, 5 and 10 times table as well as the rest of the times tables. This can be practised on Times Table Rock Stars.

### English

In English the children will be using their Geography learning to influence their writing. They will be exploring an information text linking to Hot and Cold Deserts, using their phonics knowledge to write more complex sentences. Please read regularly with your child at home, accessing their phonics book and speedy reading sheet.

### Science

In Year 2 Science the children will be building upon their prior learning of materials to distinguish between an object and the material which it is made from. Children will be describing physical properties of these objects and understanding where they come from.

### Geography & History

In Geography the children will be studying similarities and differences between hot and cold deserts. They will explore where the deserts are, plus the climate and weather.

The children will be learning about Sacagawea and Michael Collins.

Exploring who they are, why they are famous and learning more about their expeditions.

### PSHE & RE

In RE, they will be learning about the stories in the Bible and what they reveal about God.

In PSHE, the children will hold a range of discussions on how to keep safe, both at home, school and online as well as friendships and behaviour.

### PE

PE day will be a **Friday** in Year 2 and the children will need to attend school in tracksuit bottoms, black/dark trainers, school polo top or t-shirt and a navy jumper. Please ensure they have a bottle of water too.

Not forgetting book bag Fridays!
